

AMENDMENTSIn the claims

Please cancel claims 5 and 7, without prejudice.

Please amend claim 1 as follows:

1. (Twice Amended) A laundry detergent and/or fabric care composition comprising a polymer and a chemical entity comprising a deposition aid having a high affinity for cellulose and a benefit agent;

wherein said deposition aid is an enzyme binding domain of a material selected from the group consisting of: phospholipases, keratanases, peroxidases, gluco-amylases, amylases, xylanases, esterases, acetylerases, pectinases, reductases, oxidases, phenoloxidases, lipxygenases, ligninases, pullulanases, tannases, pentosanases, chitinases, mannanases, β -glucanases, arabinosidases, arabinofuranosidases, hyaluronidases, chondroitinases, dextranases, transferases, glycosyltransferases, laccases, carbohydrases, amino acid sequences comprising a cellulose binding domain and mixtures thereof;

wherein said amino acid sequence comprising a cellulose binding domain is selected from the group consisting of: CBDs CBHII from *Trichoderma reesei*, CBDs CenC, CenA and Cex from *Cellulomonas fimi*, CBD CBHI from *Trichoderma reesei*, CBD Cellulozome from *Clostridium cellulovorans*, CBD E3 from *Thermomonospora fusca*, CBD-dimer from *Clostridium stecorarium* (NCIMB11754) XynA, CBD from *Bacillus agaradherens* (NCIMB40482), CBD family 45 from *Humicola insolens* and mixtures thereof;

further wherein said polymer is selected from the group consisting of: soil release polymers, dispersants, anti-redeposition polymers, dye transfer inhibitor polymers, flocculants and mixtures thereof

further wherein said benefit agent is linked to said deposition aid via a linking region, wherein said linking region is a polymer selected from the group consisting of polyethylene glycol nucleophilic derivatives, polyethylene glycol carboxyl derivatives, polyethylene glycol electrophilically activated derivatives, polyethylene glycol sulfhydryl-selective derivatives, polyethylene glycol heterofunctional derivatives, polyethylene glycol biotin derivatives, polyethylene glycol vinyl derivatives, polyethylene glycol silane derivatives, polyethylene glycol phospholipid derivatives and mixtures thereof.
